Here's a step-by-step guide on how to get and install the **Greenlight AI Premium** bot from [Trade Africa Hub](#):

Step 1: Create a Deriv Account (If You Don't Have One)

1. **Go to Deriv** – Visit [Deriv](#) and click on **Sign Up**.
 2. **Fill in Details** – Provide your email and create a password.
 3. **Verify Email** – Check your inbox and verify your email address.
 4. **Complete Registration** – Fill in additional details such as name, phone number, and country.
 5. **Open a Real or Demo Account** – Choose to create a **Real Account** for live trading or a **Demo Account** for practice.
-

Step 2: Purchase the Greenlight AI Premium Bot

1. **Visit Trade Africa Hub** – Go to the official Trade Africa Hub website or contact their support to purchase the Greenlight AI Premium bot.

2. **Create an API key** – Log in to Deriv.

Go to API Settings – Navigate to Settings > API.

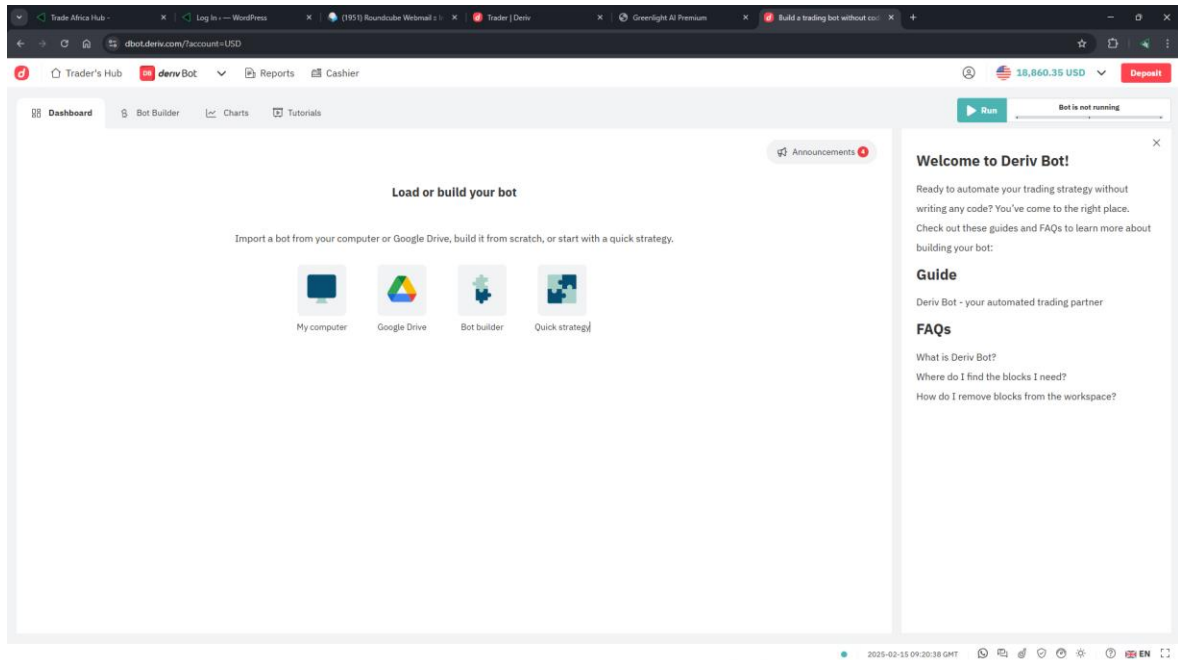

Generate a New API Key:

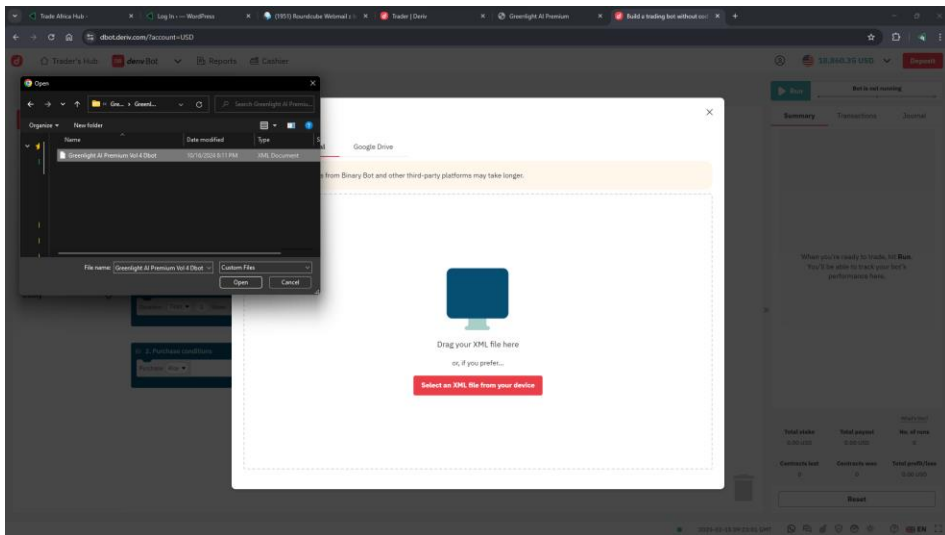

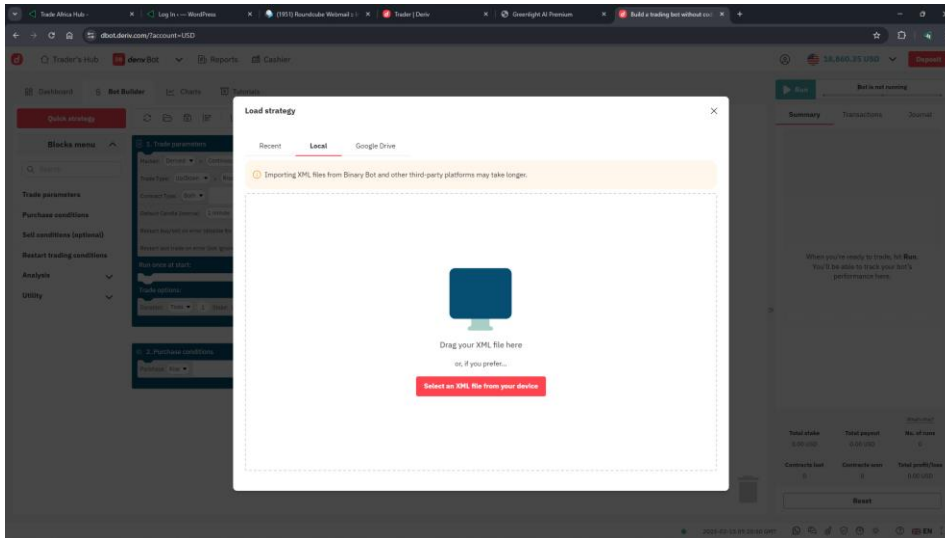

- Give it a name (e.g., "Greenlight AI").
 - Select the permissions: Read, Trade, and Trade Information.
 - Click Create and copy the API key.
 - Share it to us or input when checking out on the website for integration.
 - Visual demonstration. [Api key](#)
3. **Make Payment** – Follow the payment instructions provided by Trade Africa Hub. Payment methods include: Crypto, Binance pay, Skrill, Bybit, Perfect money or Mobile payment depending on where you are located.
 4. **Receive the Bot File** – After payment confirmation, you will receive the bot file in a .zip format.
-

Step 3: Install and Set Up Greenlight AI Bot

Option 1: If You Received a .zip File

1. **Download and Extract** – Unzip the file to get the bot script.
2. **Open Deriv Bot Platform:**
 - Go to [deriv bot](https://derivbot.com)
3. **Upload the Bot:**
 - Click **Load New Strategy** and upload the .xml bot file. (Greenlight AI Premium dbot)
4. **Set Your Preferred Trading Parameters** – Adjust settings like trade amount, stake.
5. **Run the Bot** – Click **Run** to start automated trading

Option 2: If the Bot Requires a VPS Installation

1. **Get a VPS (Virtual Private Server)** – Recommended for 24/7 trading.
2. **Upload the Bot to the VPS** – Use an FTP client or remote desktop.
3. **Run the Bot** – Launch the script following the installation guide provided.

Step 4: Monitor

- **Observe Performance** – Check the bot's results and make sure the internet is stable.
- **Withdraw Profits**– You can now withdraw profits once the bot stops on its own. Trade gain after 24 hours.

That's it! You're now set up with the **Greenlight AI Premium** bot.
